

Rackmount your TosiRack

TosiBox provides very good performing devices for small and medium sized businesses; however these are desktop models. These days businesses move to 19 inch racks and the RM-TR-T1 is excellent to fit Tosibox devices in a 19" rack.

Rackmount Kit For TosiBox Lock 100 has all the RJ45 connections from the rear on the front panel. The unit is 1U high.

The RM-TR-T1 is delivered in RAL 9005 (black). Other colors can be delivered on project basis.

Assembly will take about 5 minutes. Simply slide your Tosibox device in the kit, place the retainer and connect the supplied cables to the keystones.

Model	TosiRack Model	Dimensions
