

# Rackmount your CisRack

Cisco provides very good performing devices for small and medium sized businesses; however these are desktop models.

These days businesses move to 19 inch racks and the new CisRack kits are excellent to fit Cisco devices into 19 inch cabinets.

The CisRack kit is an excellent add-on to place your high performance Cisco in a 19 inch rack. On top of that it brings the essential console and network connections to the front!

The CisRack RM-CI-T1 has all the RJ45 connections from the rear on the front panel, including the console connection. The unit is 1.3U high. The RM-CI-T1 is delivered in RAL 5020.

These days businesses move to 19 inch racks and the RM-CI-T2 is excellent to fit Cisco devices in a 19" rack.

The RM-CI-T2 has all the RJ45 connections from the rear on the front panel, including the console connection. The unit is 1.3U high.

Model	CisRack Model	Dimensions
