
Using the FON-260i Telephone

This document briefly describes how to use the phone. The reference card includes the basic features. For more information, see the phone's QuickStart Guide.

Buttons

Most of the buttons are similar to those on other phones, but you might not be familiar with the following:

- — Puts a call on hold.
- — Dials the last number again.
- — Opens configuration options or transfers a call.
- — Accesses voicemail.

Remember

- Dial **9** (**0** in some countries) or **8 1** to **8 8** to get an outside line. This is not required if you have direct line access, which automatically chooses an outside line.
- Press **#** after dialing an outside number or extension.
- If you have direct line access, dial *** *** before dialing a feature code or extension.

Setting up voicemail

1. Press .
2. When prompted, enter a password, record a greeting and record your name for the dial-by-name directory.

Checking voicemail

1. Press .
2. When prompted, enter your password + **#**.
3. Press **1** to listen to your messages. You can also change your greeting and personal options.

Calling an outside number

1. Dial **9** (**0** in some countries) or **8 1** to **8 8** to get an outside line. This is not required if you have direct line access, which automatically chooses an outside line when you dial the phone number.
2. If prompted, dial an access code.
3. Dial the phone number + **#**.

Calling an extension

Dial the extension number + **#**. If you have direct line access, dial *** *** first.

Placing a caller on hold

Press . You can now hang up or answer another call without disconnecting the caller.

Retrieving a caller on hold

Press .

Performing a screened transfer

A screened transfer allows the recipient to accept or refuse the transfer.

1. Press + <extension> (or outside number) + **#**.
2. When the recipient answers:
 - press or hang up to complete the transfer; or
 - press **OK** and scroll to select *Cancel Transfer*.

Performing a blind transfer

Press + <extension> (or outside number) + **#**, then hang up.
